Data is provided as 10 meter rasters in 100 x 100 km tiles grouped according to the EEA39 countries, as well as a full EEA39 mosaic. The 100 meter aggregate raster is provided as a full EEA39 mosaic. The spatial reference of all products is the European LAEA (EPSG: 3035) projection. More information about these products can be found [here](#).

Please note that you can only download the latest version of our products from this website. If you are looking for older versions of the products please contact copernicus@eea.europa.eu.
